

# WE ARE HIRING

Munich, Erfurt, Dresden or remote

## Front-End Developer (M/F/D)

### DO YOU WANT TO SAVE THE ENVIRONMENT WITH US?

Great - then become part of **AMPEERS ENERGY**. As a young energy start-up from Munich and a spin-off of the Fraunhofer-Gesellschaft, our heart beats for energy-efficient and sustainable software solutions and clean code flows in our veins. With our IT and industry know-how we want to make the energy revolution so appealing to companies that there is no reason not to tackle it. How do we do this? - Quite simply: With innovative business models such as tenant flow and managed charging. And with a massive stack!

### YOUR ROLE

- \_ You provide a face to our products and make our back-end applications available to users
- \_ As an all-round talent you will be needed at every point of the front-end (UX, APIs, functionalities & of course by contributing your own ideas)
- \_ You create exciting visualizations
- \_ You share your stack experience with the team in order to grow the products together

### OUR OFFER

- \_ Home office & trusted working hours: You decide when and where you are most productive
- \_ Modern office in the heart of Munich, Erfurt or Dresden
- \_ Personal and professional development - beyond silos
- \_ Support of own ideas
- \_ Team spirit instead of trench warfare
- \_ Really great colleagues
- \_ A job you can be proud of

### YOUR SKILLS AND QUALIFICATIONS

- \_ A degree with a focus on IT or a comparable training
- \_ Secure handling of JavaScript and ReactJS
- \_ A clean and well-structured style in programming
- \_ Strong knowledge of web services, such as GraphQL and REST
- \_ Experienced handling of common development tools, such as GIT and JIRA
- \_ Openness for self-organised, agile working methods
- \_ Nice to have: Tablesoccer & Dart-Skills
