

WE ARE HIRING

Munich, Erfurt, Münster or in your city

Developer (m/f/d) for the Python-based ERP system Odoo

WOULD YOU LIKE TO HELP SHAPE THE FUTURE OF THE ENERGY REVOLUTION?

Top - then become part of **AMPEERS ENERGY**. As a young energy turnaround start-up from Munich and spin-off of the Fraunhofer-Gesellschaft, our heart beats for energy-efficient and sustainable software solutions and clean code flows in our veins. With our IT and industry know-how we want to make the energy revolution so attractive for companies that there is no reason not to tackle it.

How do we do this? - Quite simply: With innovative business models such as tenant flow and controlled charging. And with a fat stack!

YOUR ROLL

- Design and implementation of new functionalities for the Python-based ERP system Odoo
- Development of solution concepts
- Administration, further development, customizing and maintenance of Odoo

OUR OFFER

- Home office & trusted working hours: You decide when and where you are most productive
- Free choice of hardware
- Personal and professional development - with a view beyond the silo rim
- A job you can be proud of
- Promotion of own ideas
- Team spirit instead of trench warfare
- Really great colleagues

YOUR SKILLS

- Degree in computer science, specialized computer science, comparable degree or corresponding work experience
- You have very good knowledge of the programming language Python
- At best you have first experiences with the ERP system Odoo
- You are interested in new programming languages and concepts and are willing to develop yourself
- You enjoy taking responsibility for projects and advancing them with creative ideas
- You are reliable and a team player
- You have a high willingness to learn and a wealth of ideas
